F. Boyd, alias Anderson, is now lying in the county jail at Fremont awaiting his trial. He is charged with assault on President Leavitt of the Standard Sugar company at Ames. Boyd had lately been discharged from the force working at the new sugar factory. He was very angry at his dismissal and proposed to vent his rancor on Mr. Leavitt. He was a burly fellow, but met more than his match in Mr. Leavitt, who is an eastern college athlete, whose work on an eight-oared crew gave him muscle. He knocked Boyd flat three times, the last time knocking him off completely.

A question of interest to national guardsmen has come up in the adjutant general's office. The office was notified that C. G. Stewart had been elected by Company K at Schuyler as captain. The adjutant general has just sent a letter to the officers of the company informing them that the records of his office do not show that C. G. Stewart was ever mustered into Company K, and that if he was not, under the statute, he could not be elected captain. The state law requires that the captain and other company officers be elected from the members of the company. It is possible that Stewart was mustered in and the papers were not forwarded to the adjutant general. If this is not so, the company is ordered to hold another election.

THE CROP CONDITIONS

Taken as a Whole the Outlook is Highly Favorable.

IT COULD HARDLY BE BETTER.

Corn Will Be Very Fine—Now Tasseling in the Southern Part of the State—Wheat Yield Will Not Be Heavy—Oats Strong—Miscellaneous Nebraska Matters.

University of Nebraska, Lincoln.—The past week has been cool, with heavy rains in southern counties. The average daily temperature deficiency has been about three degrees. The maximum temperatures for the week have generally been below 90 degrees. The rainfall of the week has been below normal in the northern and in most of the extreme western counties and heavy in the southern counties. In several southeastern counties it ranged from two to slightly more than four inches.

The past week has been an excellent one for the growth of vegetation in all parts of the state. Winter wheat has ripened rapidly, and harvesting has commenced. The quality is everywhere good, but the acreage is small and the yield per acre is also small. Oats have made rapid progress, and are now ripening in southern counties. Some damage to oats is reported, caused by lodging, rust and hail, but the damage is small, and the crop promises to be a large one. Spring wheat is looking well.

Corn has continued to grow rapidly, and is now too large for cultivation, except in northern counties. Corn is laid by fairly free of weeds, but more cultivated would have been done had it grown less rapidly, and some fields have been laid away weedy. The earliest planted corn is tasseling out in southern counties. Taken as a whole, corn continues in exceptionally good condition.

A good crop of tame grass is being cut for hay in eastern counties.

SOUTHEASTERN SECTION.
Butler—Rye and winter wheat harvest in progress; hay being cut; much corn laid by, some fields beginning to tassle out.

Cass—Wheat and oats rusting some; many pieces of oats lodging; plenty of moisture and hot weather have forced corn ahead wonderfully.

Clay—Fall wheat and barley harvest about completed; oats ripening and look well; corn making very rapid growth, nearly all laid by.

Fillmore—Wheat being cut; oats turning; corn never promised better.

Gage—Oats turning rapidly and will make a good crop; fall wheat and rye mostly in shock; corn plowing retarded by frequent rains.

Hamilton—Small grain harvest commenced; corn rather weedy, early corn tasseling out.

NORTHEASTERN SECTION.
Antelope—Wheat and oats heading nicely and promise a splendid yield; much corn being laid by.

Boyd—Excellent wheat; wheat improved somewhat; corn fine.

Burt—Corn doing splendidly; wheat and oats rusting somewhat; fine crop of hay being cut; potatoes fine.

Cedar—Small grain heading out, getting rusty; corn fine and nearly all laid by; cool and damp weather.

Colfax—Harvest of winter wheat and rye begun; corn fine; good rain.

Cuming—Barley and rye turning; corn growing fast; wheat heading.

CENTRAL SECTION.
Boone—Wheat, oats, rye and barley heavy crops; potatoes and grass good; corn fine and half laid by.

Buffalo—Early rye being cut; corn doing well, but some pieces are weedy, give promise of largest crop ever raised here.

Dawson—Rye harvest out, light; corn fine; much plowed third time.

Garfield—Week of frequent showers; crops doing nicely.

Hall—Winter wheat harvest out; some corn laid by; potatoes plenty.

Howard—Winter wheat and rye being harvested; spring wheat and oats doing well; corn doing well, but would be improved by rain.

SOUTHWESTERN SECTION.
Adams—Most corn laid by and is making rapid growth; wheat being cut, yield small, but extra good quality; potatoes unusually fine.

Chase—Crops growing finely; grasshoppers at work on wheat.

Dundy—Corn and potatoes growing well; stock on range fatten fast.

Franklin—Harvest commenced; wheat well filled, good quality, but thin on the ground; oats good crop; corn never looked better.

Frontier—Small grain poor, but will pay to cut; heavy rain; corn fine.

Furnas—Wheat being harvested, good quality, but light yield; corn doing well and promises a big crop; potatoes and pastures good.

WESTERN AND NORTHWESTERN SECTION.
Box Butte—Small grain and grass improved by rain 7th; corn good.

Cherry—Dry week; corn doing well.

Cheyenne—Heavy rains helped meadows and small grain; corn well.

Deuel—Cool, with little rain; corn doing fairly well.

Seeking Pardon for a Murderer.

Atsworth dispatch: County Clerk Smith has received official notification of the commutation of the sentence of Ole Anderson from imprisonment for life to fifteen years, one month and eight days, which with good time released him from prison on the Fourth of this month.

The history of the case is as follows: On the 31st day of March, 1887, Ole Anderson, living in the southeast part of what was then Brown county, but later partitioned off as Rock county, was arrested for the murder of his wife which occurred a few days previous. He was tried and on the 20th day of February, 1889, after nearly two years had passed, was convicted and sentenced to be hanged. His sentence was afterward commuted to imprisonment for life. The murder was most foul, Anderson braining his wife with a bucket and afterwards hiding the body in an old well where it was found. On the 3rd of this month Governor Poynter commuted the sentence as above, making Anderson a free man. There is a good deal of dissatisfaction over the governor's action and it will be widespread when it becomes generally known. No intimidation was given our people so far as known, that any effort was being made to pardon Anderson and the news will come as a shock to our justice-loving people who feel that such work is a bid for the court of Judge Lynch to sit in judgment hereafter.

Some Novel Propositions in Law.

Fremont dispatch: A case has been on trial in the district court for the last two days involving some somewhat novel propositions of law. Geo. Kern suddenly disappeared from his home in the western part of the county in November, 1891, and has not been heard of since. His property was mortgaged and there were rumors that a part of it had been sold. About a year ago he inherited considerable property, and as he has been absent seven years his wife, Anna Kern, made application to the county court for her appointment as administratrix of his estate, alleging that, not having been heard from him for seven years, he was legally dead. The application was resisted by some of his creditors, who at once commenced attachment proceedings, levying on some land. The county court decided in favor of Mrs. Kern and the creditors took an appeal to the district court. Last evening the jury brought in a verdict in her favor. The creditors claimed that Kern left to avoid prosecution for the crime of selling mortgaged property and that, therefore, the presumption of death on account of seven years' absence did not apply.

Wheat Turning Out Well.

The rains which have fallen in this part of the state during the past week, says a Wayne dispatch, have made doubly sure the big crops with which this country has been blessed for many years. The corn has long ago been laid by and is now as high as a man's head and will, according to the estimates of conservative farmers, go eighty bushels to the acre. Wheat is being harvested and what was supposed was a total failure is making a good crop. Oats and other small grains were never in finer condition. The prospects are that, with the exception of wheat, this portion of Nebraska will break all previous records in the matter of large crops. The farmers here are still holding their corn from last year, not being in a condition where they are forced to sell, as has been the case in previous years.

The reunion next year will be held at Pierce.

Later he located quite a lot of clothing in a private barn in the eastern part of town for which he wishes to find an owner.

"Ahi ahi!" laughed the janitor as he shut the entrance gates in the noble lord's face, "we've got four of 'em inside already!"
